Lithium Urban Tech acquires **Pune-based SmartCommute**

FE BUREAU Pune, May 26

LITHIUM URBANTechnologies, a mobility solutions provider, on Wednesday announced the acquisition of Pune-based SmartCom mute, an employee transport services SaaS platform.

SmartCommute was founded in 2014 and is into simplifying employee transportation services for corporates across the country. Before Covid-19 struck, the Smart-Commute platform was being used to move 30,000 employees daily in over 3,000 vehicles across Bengaluru, Mumbai, Pune, Kolkata, New Delhi and Hyderabad for clients such as Capgemini, L&T Infotech, KPIT and TCS.

Lithium Urban owns the largest fleet of EVs in the world outside of China. It also owns and operates India's largest EV charging network spread across seven cities. Founder Sanjay Krishnan said this acquisition will help expand into the larger transportation and mobility ecosystem.

"Employee transportation is a multibillion-dollar market in India, and Lithium powered with SmartCommute tech will be in a formidable position to become a leader in the market," Ajit Patil, cofounder, Smart Commute said.

Note: (1) The above is an extract of the detailed format of result for Quarter and Financial Year ended on 31st March, 2021 filed with stock exchanges under Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations 2015. The full format of the said results are available on the website of Exchanges i.e., BSE at www.bseindia.com and NSE at www.nseindia.com as well as on the company's website at www.shareindia.com.

(2) The key Standalone Financial Information for the Quarter and Financial Year ended 31st March, 2021 are given below:

Particulars	Quarter Ended 31.03.2021	Year Ended 31.03.2021	Quarter Ended 31.03.2020	Year Ended 31.03.2020
Turnover	15,075.48	38,279.51	8,229.01	20,908.97
Profit before tax	3,691.66	8,564.70	1,871.93	4,378.15
Profit after tax	2,966.86	6,732.87	1,467.14	3,350.14

directly as this is a direct expense. Consequently, FY20 and Q4 FY20 figures for revenue from operation and expenses items have also been updated to arrive at the comparable figures. STT subtracted from Revenue from operation and Expenses items in Consolidated and Standalone results for Q4 FY20 and FY20 are INR 1,607.24 Lacs and INR 5,068.97 Lacs, respectively. (4) Share India Securities Limited including its subsidiary companies are engaged in the business of trading securities and investments wherein interest income and dividend income are a part of operational income. Thus, consolidated and standalone figures for revenue from operations for FY21 and Q4FY21 have been adjusted for the same. Consequently, FY20 and Q4 FY20 figures for revenue from operation and other income items have also been updated to arrive at the comparable figures. Interest and dividend incomes added to revenue from operations by shifting the same from other incomes item for Q4FY20 and FY20 in respect of consolidated results are INR 626.35 Lacs and INR 1663.18 Lacs respectively while the same figures in respect of standalone results are INR 617.14 Lacs and INR 1653.97 Lacs respectively.

(3) The standalone and consolidated figures for revenue from operations for FY21 and Q4 FY21 has been adjusted for STT

NEW DELHI RAILWAY STATION REDEVELOPMENT PROJECT

Adani Rlys, GMR, Among 9 Cos Eligible for Bidding

Faizan.Haidar@timesgroup.com

New Delhi: Adani Railways Transport, the GMR Group, Arabian Construction Co, Anchorage Infrastructure and Kalpataru Power Transmission are among nine domestic and international companies that will be eligible to bid for the New Delhi railway station redevelopment project, entailing an es-

crore, said a Rail Land Development other companies that have been clea-Authority (RLDA) official.

The RLDA that in February received requests for qualification from these firms has found all of them eligible. "We will now invite them to participate in the tender and are likely to award the bid by the end of this year," said the official. Omaxe, BIF IV India Infrastructure

Holding, ISQ Asia Infrastructure In-

red for the bidding pro-

The RLDA has planned a mix of retail, office and hospitality developments on 30 acres near Connaught Place as part of the

redevelopment project. Due to the pandemic, the authority

tings online. It has also conducted virtual road shows to attract investors and ensured that the project execution doesn't suffer due to Covid-19.

The redevelopment of the New Delhi railway station is a flagship project of the RLDA and the first project to be undertaken on the Transit-Oriented Development concept in the National Capital Region.

AMID SECOND WAVE OF COVID

Mobile PLI Timeline may Begin in FY22

Govt may shift first year of production from FY21; move will bring relief to cos finding it tough to meet targets

Anandita.Mankotia @timesgroup.com

New Delhi: The government is considering making FY22 the first year of production instead of FY21 for the production-linked incentive (PLI) scheme for mobile phone manufacturing, senior government officials said. This will entail no additional budgetary outgo on part of the government. If approved, the move will bring relief to the likes of iPhone contract makers Foxconn and Wistron besides homegrown brands Dixon, Lava and Micromax.

Meeting first-year PLI targets has become tough due to pandemic curbs and global supply chain disruptions, among other geopolitical factors.

'With the second wave of Covid hitting the country, there is serious thinking on the matter as companies are genuinely finding it difficult to meet their targets," one of the officials told ET.

A change in the timeline will mean manufacturers need to post incremental production worth ₹4,000 crore in this fiscal year, instead of ₹8,000 crore in the second year. They will thus be able to avail of maximum incentives worth 6% during the year, experts said.

The ambitious ₹41,000 crore PLI scheme which entails incentives in the form of cash pavouts based on investment and targeted increments in production — is aimed at making India a more attractive manufacturing destination and weaning companies away from bases such as China and Vietnam. The Centre is looking to make the country a global manufacturing hub with an export target for phones worth \$100 billion over the next five years.

"If this (change in timeline) comes through, this will have a several-fold impact. It will send the right signals to all the international inves-

On the Table

Approval to **defer** timeline may come through Cabinet

Requested to invoke force majeure as workers' jabs stuck due to shortage

Phone cos, through ICEA,

MeitY had opposed relaxation till now,

tors that the government is there to support them in these pandemic times," said IDC research director Navkendar Singh. "Also, one has to take a long-term view on this. While the government doesn't lose much in pushing the scheme by a year, the industry gains significantly and (it) shows India as an investor friendly destination.'

He added that it's important for the government to show its support for the plan, which is the marquee PLI scheme of the government, which has extended it to other sectors.

As reported by ET, Samsung is the only one of 16 companies to have met its FY21 target for smartphones. Unlike others, it didn't have to ship any plant and machinery to India and simply needed to ramp up production at its existing facilities, industry executives said.

The nodal ministry of electronics & information technology (MeitY) had opposed the industry demand, citing Samsung's example of meeting its target. But owing to the severe second Covid wave, which restricted manufacturing across the country, the government is now more inclined to accept the demand. This will likely be taken to Cabinet shortly, a second official said.

In a Nutshell

Pension Assets Under Mgmt at ₹6 L cr in May, says PFRDA

NEW DELHI: The Pension Fund Regulatory and Development Authority (PFRDA) on Wednesday said total pension assets under management touched ₹6 lakh crore in May. AUM growth of the last ₹1 lakh crore has been achieved in 7 months. "This shows the faith in NPS and PFRDA. A realisation during this pandemic is priority accorded by individuals to retirement planning, for preserving financial well-being," said chairman Supratim Bandyopadhyay. Our Bureau

NHAI Issues Guidelines to **Cut Waiting Time at Toll Plazas**

NEW DELHI: Soon, yellow lines at toll plazas will ensure that the waiting queue of vehicles is not more than 100 metres at any given point in time and if the queue is beyond the stipulated distance, then vehicles at the front can pass without paying the toll. These guidelines have been issued by the National Highways Authority of India (NHAI) as it seeks to minimise waiting time at toll plazas and ensure service time of not more than 10 seconds per vehicle even during peak hours.

चमार्क निफ्टी-50 इंडेक्स बुधवार को 16 फरवरी के बाद पहली बार 15,300 अंक से ऊपर बंद हुआ। आर्थिक गतिविधियों में तेजी की उम्मीद में यह इंडेक्स लगातार चौथे दिन चढा क्योंकि महामारी के कारण लगी पाबंदी में ढील दी जाएगी और टीकाकरण में बढ़ोतरी होगी।

निफ्टी 93 अंक यानी 0.61 फीसदी की बढ़ोतरी के साथ 15,301.45 पर बंद हुआ, जो नए सर्वोच्च स्तर से महज 14 अंक पीछे है। बंद आधार पर इस इंडेक्स ने अपना सर्वोच्च स्तर 15 फरवरी को दर्ज किया था, जो 15,314.7 था यानी कोरोना महामारी की दूसरी लहर से

बुधवार को सेंसेक्स 380 अंक यानी 0.75 फीसदी की बढोतरी के साथ 51,017 पर बंद हुआ। यह इंडेक्स अभी 15 फरवरी के अपने सर्वोच्च स्तर 52,154 अंक से 1,136 अंक यानी 2.33 फीसदी पीछे है। कोविड संक्रमण के रोजाना के मामले हालिया उच्चस्तर से आधा रह जाने से कारोबारी गतिविधियां धीरे-धीरे दोबारा बहाल होने की उम्मीद बढ़ी है, जिस पर स्थानीय लॉकडाउन का असर पडा है।

यूबीएस और मॉर्गन स्टैनली जैसे ब्रोकरेज फर्मों के लिए उभरते बाजारों में भारत सबसे ज्यादा तरजीही बाजारों में से एक बना हुआ है। युबीएस ग्लोबल वेल्थ मैनेजमेंट के रणनीतिकारों एँ ज्युरेचर और क्रिस्टल जाओ ने हालिया नोट में कहा है, कोविड-19 की स्थानीय स्थिति पर भारतीय शेयरों ने कोई प्रतिक्रिया नहीं जताई है। भारत पहले से ही बढ़त में सुधार की राह देख रहा है, जो एक शायद तिमाही आगे खिसक गया है।

इस साल निफ्टी करीब 9 फीसदी चढा है, जबिक क्षेत्रीय बेंचमार्क एमएससीआई एशिया पैसिफिक इंडेक्स में 3 फीसदी की बढ़ोतरी दर्ज हुई है। मॉर्गन स्टैनली के रणनीतिकार (एशिया व उभरते बाजार) डेनियल ब्लेक ने कहा, आय की रफ्तार काफी सुदृढ है और नीतिगत मोर्चे पर उठाया जाने वाला कदम बुनियादी ढांचे में सुधार ला रहा है और वैश्विक आपूर्ति शृंखला में आकर्षक है। ब्रोकरेज को उम्मीद हैं कि भारत की आय की रफ्तार साल 2002 में काफी ज्यादा बढेगी. जो पीई गुणक को नीचे लाएगी।

नोमूरा की विश्लेषक सोनल वर्मा ने ए. नंदी के साथ लिखे एक नोट में सोमवार को कहा,

अनुपात सकारात्मक रहा और 1904 शेयर चढ़े व 1,231 में गिराव आई। 374 शेयरों ने 52 हफ्ते की ऊंचाई को छू लिया और 474 शेयरों में ऊपरी

सेंसेक्स के दो तिहाई शेयर बढ़त के साथ बंद हुए और बजाज फाइनैंस का प्रदर्शन सबसे अच्छा रहा, जो 4.7 फीसदी की बढ़त के साथ बंद हुआ। रियल्टी व आईटी इंडेक्स सबसे ज्यादा

सोना 1,900 डॉलर प्रति औंस से ऊपर

गॅयटर्स

जनवरी के बाद बुधवार को सोना पहली बापर 1,900 डॉलर के स्तर को पार कर गया। सोने का हाजिर भाव 8 जनवरी के बाद से अपने ऊंचे स्तरों (1,920 डॉलर) पर पहुंचने के बाद 0.2 प्रतिशत चढ़कर 1,903.70 डॉलर प्रति औंस पर पहुंच गया।

अमेरिकी स्वर्ण वायदा भी 0.4 प्रतिशत बढ़कर 1,904.70 डॉलर पर रहा। बैंक ऑफ चाइना इंटरनैशनल में जिंस बाजार रणनीति की प्रमुख जियाओं फू ने कहा, 'अमेरिकी 10 वर्षीय बॉन्ड प्रतिफल दो सप्ताहों में निचले स्तर पर पहुंच गया जिससे सोने में कुछ टेक्नीकल खरीदारी को बढ़ावा मिला। 'फू ने कहा, 'ऐसा लग रहा है कि 1,900 बेहद मजबूत स्तर है। ' उन्होंने कहा कि मई में अमेरिकी श्रम बाजार में धीमी तेजी को सोने के लिए सकारात्मक माना जा सकता है, क्योंकि इसका मतलब होगा कि फेडरल रिजर्व लंबे समय तक अनुकूल नीतिगत रुख बनाए रख सकता है।

वैश्विक तेल याटा 10 लाख बैरल प्रतिदिन

रूस के उप-प्रधानमंत्री अलेक्जेंडर नोवाक ने बुधवार को कहा कि वैश्विक तेल घाटा अब करीब 10 लाख बैरल प्रति दिन (बीपीडी) पर पहुंच गया है। पेट्रोलियम निर्यातक देशों और सहायक देशों (रूस समेत) के संगठन (ओपेक+) जुलाई तक 21 लाख बीपीडी तेल उत्पादन का अनुमान जता रहा है। ओपेक देशों की अगली बैठक 1 जून को होनी है।

विश्लेषकों का अनुमान है कि यदि अमेरिका और ईरान के बीच किसी अप्रत्यक्ष बातचीत से प्रतिबंध हटने को बढावा मिलता है तो ईरान द्वारा तेल उत्पादन में वृद्धि से ओपेक आपूर्ति में 10 से 20 लाख बीपीडी के बीच वृद्धि दर्ज

नोवाक ने बुधवार को पत्रकारों को बताया, 'हमने ईरानी तेल की वापसी को हमेशा से ध्यान में रखा है।' ईरान के सरकारी प्रवक्ता अली रेबेई ने कहा, 'हमें इस पर विचार करने की जरूरत है। हम आपित और मांग संतलन की गणना करेंगे।' उन्होंने कहा कि वह यह उम्मीद कर रहे थे कि ईरान जल्द समझौते में सफल रहेगा, हालांकि ईरान के मुख्य वार्ताकार का कहना है कि इसे लेकर गंभीर समस्याएं बनी हुई हैं। कच्चे तेल की कीमतें बुधवार को

South-West monsoon may enter Maldives-Comorin today

Very severe cyclone 'Yaas' hits North Odisha coast

VINSON KURIAN

Thiruvananthapuram, May 26 Very severe cyclone 'Yaas' barrelled down over the North Odisha coast on Wednesday, bringing the premonsoon cyclone season to an end.

prompted This has weather watchers to turn focus on the South-West coast (Kerala) and the nearby seas where a friendly buzz from an approaching monsoon has attracted keen interest.

Sri Lanka, to the immediate South, declared the onset on Tuesday, and India Met-Department eorological (IMD) said on Wednesday that conditions are becoming favourable for advance of monsoon over parts of Maldives-Comorin area (South and South-West Arabian Sea)

as early as on Thursday.

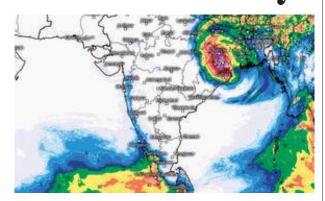

Moving into more parts

This phase would also see the Bay arm of the monsoon advance further into South-West and East-Central Bay; some parts of West-Central Bay and entire South-East Bay of Bengal in one fell swoop, the IMD said. It has already forecast that the monsoon may enter Kerala on May 31 with model error of +/-4 days.

Squally winds with speeds reaching 40-50 km/hr gusting to 60 km/hr are forecast over the South-West Arabian Sea on Thursday. Strong winds (40-50 km/hr) are also forecast over Gulf of Mannar, the Comorin and Maldives area and along and off Kerala

Howling winds

Meanwhile, very severe cyclone 'Yaas' crossed the North Odisha coast about 20 km South of Balasore between

Very severe cyclone 'Yaas' made an eventful landfall over the North Odisha coast on Wednesday afternoon. This has prompted a shift of focus to the Arabian Sea for signs of monsoon onset over Kerala.

10.30 am-11.30 am on Wednesday buffeted by howling winds that ratcheted up to 130-140 km/hr in speed and gusting to 155 km/hr, the IMD said earlier on Wednesday.

It managed to pin it down to the last moment as the powerful cyclone erupted over the North Odisha coast to precipitate an elaborate landfall over three hours.

Post-landfall, it weakened as a severe cyclone at 11.30 am over North Coastal Odisha,

about 15 km South-South-

West of Balasore. At 3.50 pm, it was located about 25 km West-North-West of Balasore and 35 km South-South-West of Baripada bearing wind speeds of 90-100 km/hr gusting to 110

GLOBAL SUGAR OUTPUT

India to play key role next season

USDA says it could result in higher closing stocks; Thailand production set to rebound

SUBRAMANI RA MANCOMBU

India will play a significant role in 2021-22 season's global sugar production increasing by six million tonnes (mt) but it could also result in the country carrying over huge stocks to the following season, according to the US Depart-

ment of Agriculture (USDA). While the sugar trade in the country agrees with this view, the industry, particularly private mills, think it is too early to talk about the next season.

The USDA also projects India's sugar exports remaining at the current season's level of six mt but the trade and industry see various factors deciding the shipments scenario.

In its "Sugar: World Markets and Trade" report, the USDA said global sugar production next season, which is October 2021-September 2022 in most countries, would be 186 mt with the European Union, India and Thailand making up for a fall in Brazil output. A feature of next season's global sugar production is the output in Thailand, whose season begins in December, rebounding by three mt to 10.6 mt on higher yield.

Thailand exports

The USDA said Thailand will export a record 10.4 mt of sugar next

"Thailand will provide us with competition next year. This year, its production was lower," said Praful Vithalani, President, All India Sugar Traders Association (AISTA).

Thailand produced 14.58 mt of sugar in 2018-19 but since then its production dropped to 8.29 mt in 2019-20 and 7.57 mt this season, respectively. During the same time, though India's production dropped in 2019-20, it has rebounded to over 30 mt this season. The Indian Sugar Mills Association (ISMA) has pegged the last season output at 27.42 mt.

Dwelling on India, the USDA

Curb speculative tendencies in comexes to control price rise: SEA

Indian production is seen increasing to 34.7 mt

said that production would increase to 34.7 mt, which traders said includes part of the output that goes into the making of eth-

"The USDA may be right. We expect sugar production to be 32 mt with another 2.5 mt going into ethanol production," said Rahil Shaikh, Managing Director, MEIR Commodities India.

Too early for projection

ISMA Director-General Abhinash Varma said that it is too early to project next season's sugar output. "This year, our production is 32.8 mt but over two mt have gone into ethanol production," he said. Ratings agency Crisil said that

the outlook for a favourable monsoon would ensure in surplus wa-

ter availability that will support sugar production. However, it sees sugar production being moderated by diversion of cane towards producing ethanol.

As regards Thailand development, the ISMA Director-General said even that was too early for making an estimate as its season synchronises with that of India.

Export factors

MEIR Commodities' Shaikh said that India's sugar exports were "export scenario dependant, government dependant and policy dependant". "Sugar production and export will totally depend on how Indian monsoon pans out. If it turns out to be average, it will be good," said AISTA's Vithalani.

The USDA said India's ending stocks this season is projected to be 15.37 mt, which is 0.5 mt higher than earlier estimates due to lower consumption. The industry has pegged ending stocks at 11 mt.

Next season, the end stocks are estimated to increase to 16.57 mt, but trade and industry participants see some of the surplus being diverted to ethanol produc-

Go short on NCDEX guarseed futures

COMMODITY CALL

AKHIL NALLAMUTHU

BL Research Bureau The June contract of guarseed futures on the National Commodity and Derivatives Exchange (NCDEX), after making a high of ₹4,432 before a couple of weeks, overturned the trend and started to move downwards. Noticeably, the price band between ₹4,400 and ₹4,475 has been a strong resistance and it has stayed that way since November 2018.

The continuous contract of guarseed futures began 2021 on a sluggish note as it extended its sideways trend that has been in place since December last year. The contract was largely oscillating between ₹3,800 and ₹4,030. While it declined it March to a low of ₹3,713, slipping below the support of ₹3,800, the contract quickly turned upside. Following this, it established a rally which took the contract to the latest high of ₹4,432. However, as mentioned earlier, the contract is facing a substantial

OUR BUREAU

Mangaluru, May 26

The Solvent Extractors' Association (SEA) of India has suggested measures such as curbing speculative tendencies in commodities exchanges and insisting on compulsory delivery conto control the tracts unprecedented increase in the edible oil prices in the country.

Presenting SEA's suggestions to the Centre in a meeting with the Secretary of Food and Public

Distribution, on Monday, Atul Chaturvedi, President of SEA of India, said that there is a need to curb speculative tendencies in these volatile times.

Stating that the volatility permitted by commodity exchange was 4 per cent when edible oil prices were low at around ₹80-90 a kg, he said volatility now should be permitted only to the extent of 2 per cent during the day when the prices have practically doubled. This will curb ex-

cessive speculation, he said. Stressing the need to insist on compulsory delivery contracts in essential commodities such as

edible oils and oilseeds, he said this will result in only serious players remaining active. SEA's other suggestions in-

cluded freezing of tariff at a lower level and subsidizing edible oil by ₹30-40 a kg in PDS for vulnerable sections of society.

Requesting the government to desist from introducing Essen-Commodities Chaturvedi said it can harm the supply chain terribly.

Stating that there has been un-

precedented price increase not only in edible oils but in practically all commodities across the world in the last few months, he attributed factors such as Chinese buying, stimulus money, La Nina weather problems in palm and soya producing areas, labour problems in Malaysia due to Covid, and aggressive biodiesel thrust in Indonesia and renewable fuel from soya oil in the US and Brazil as some of the major reasons for this.

CARDAMOM AUCTIONS

'Price discovery mechanism hit by suspension of e-sales'

Cardamom planters are keeping their fingers crossed over the suspension of e-auctions in Puttady in Idukki and Bodinayakkanur in Tamil Nadu by the Spices Board, as it has temporarily affected the price discovery mechanism for

the crop. "How the prices of cardamom will be determined in the absence of auctions is the query raised among

the trading fraternity", a leading auctioneer in Puttady told BusinessLine, adding that 95 per cent of the farmers are depending on auctions to get a fair price for their produce and they lost an avenue for sale.

Liquidity affected

Even though private sales are happening through farm gate level at a premium price of ₹100-150 from the auction aver-

age, local market sources say that it is not helping the traders to receive the desired grades

Besides, a subdued demand in the upcountry markets has hit the sales and liquidity.

Problematic new harvest

The suspension of auctions has blocked the arrival of around 1,000-1,500 tonnes of cardamom valued at ₹100 crore to the trading centres. The emerging

situation has forced farmers to hold their stocks. But they apprehend that the restart of the auctions is likely to witness flooding of capsules for trade, thereby creating a selling

pressure and a price crash.

season

and quantity.

C Sadasasiva Subramaniam, Secretary, Kerala Cardamom Growers Union, said that the lockdown, price fall and now heavy rains will have a reflection on the next harvest season.

hindrance.

ing fresh short positions with stop-loss at ₹4,315. The nearest notable support is at ₹4,035 where the 50 per cent retracement level of the previous trend coincides. This can be the short-term target.

Bengal's mango production to rise 25-30% this year on favourable weather + However, Covid-related restrictions and labour shortage likely to affect prospects

tion in West Bengal by nearly 25-30 per cent this year. The production is estimated to be close to 10 lakh

tonnes (lt) this year against

(in December) and the prevail-

ing "good weather" at the

time of harvesting is likely

to push up mango produc-

7.5-8 lt in 2020. However, mango growers fear that the unavailability of labour during the crucial harvesting time due to the lockdown and fear of the pandemic could impact production, both in terms of quantity and quality, and

also the prices.

Lockdown impact According to Ujjal Saha, President of Malda Mango

Merchants' Association, the flowering has been very good this year as against last year when there were untimely rains during the flowering season followed by hailstorms in the months of March-April, which is typically the period when fruits mature and ripen.

So, typically it can be expected that it would lead to bumper production this year, however, there has been a shortage of labour to carry on the most critical task of ensuring that no

pest attacks the crop. "This is the time when mangoes mature and there is a possibility of various pest attacks so we need to constantly spray medicines to ensure that they are not affected and for this we

need skilled labour. "However, there has been a shortage of labour due to the fear of pandemic and

A glut in the market is

this is likely to impact production," Saha BusinessLine.

Malda, one of the key producing districts and accounts for nearly 40 per cent of the State's total mango crop, is expecting 40 per cent higher production this year at around 3.5 lt (2.5-3 lt). The lower production last year was mainly on account of heavy rains and occasional hailstorms in

Lack of buyers Growers are also worried about the news of cyclone Yaas and its probable impact on mango producing region of the State. Heavy rainfall at the time of harvesting may impact the quality of the fruit and

According to Krishnendu Nandan, deputy director, Horticulture, Malda, there has been fewer buyers in the market this year due to the lockdown. Lack of transport availability has also impacted the movement of mangoes from Malda to the north-eastern States of Assam and Tripura among oth-

Removing restrictions on import of refined edible oils will help contain their prices quickly

COMMENTARY

G CHANDRASHEKHAR

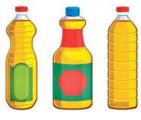

The high-level meeting involving three Secretary level officials of Agriculture, Food and Consumer Affairs with edible oil processors, millers, importers and traders as well as several State governments held on Monday (May 24) to review the high prices of edible oil saw a chorus of demands from trade and industry representatives. This included fiscal relief in terms of exemption from GST on edible oil and strong hint that the Essential Commodities

The commodity derivatives market came under attack from several speakers who alleged rampant speculation in the bourses and blamed futures trading for the strident price rise. Sadly, no one

provided even an iota of evidence in terms of data to support the claim of rampant speculation. Be that as it may, the only

sensible and practical suggestion made by a speaker from Jaipur was that all restrictions on import of refined oils should be lifted. Indeed, this is the suggestion the government must seize in order to contain cooking oil prices. Primarily, the government is concerned about food inflation. So, every endeavour must be made to augment supplies and rein in prices for the coming months.

Free import of refined oils at least for a limited period is critical. There will be little time lag between import and distribution of refined oils

which itself provides a win-

It would also make economic, social and political sense for New Delhi to quickly resume distribution of cooking oil through the government's welfare programmes such as PDS.

Agri Secretary's caution Earlier, Agriculture Secretary

cautioned traders against hoarding in anticipation of higher prices and asserted that the government has tremendous reach to know

where the stocks are. Although global prices were falling, there was no evidence of a corresponding decrease in domestic prices, he remarked. Expressing concern over

noted most of the suggestions, it appears likely that duty on edible oil imports may be slashed at least for the next few months. Also, processors, importers and trades will be mandated to declare stocks. Currently, close to 20 lakh tonnes of imported oils are in ports and in pipeline.
